
Acanthus

Patrick Blanchard

Natures enchanted flower

These elegant table lamps are inspired from the study of nature and flora. Reminiscent of the art nouveau period, the intricately carved flutes of the lamps rise up to meet a small fan of delicately wrought acanthus leaves. When illuminated, these leaves act as a shade, shielding us from the intensity of the light within and leaving us instead with a soft candle-like glow. This is made possible by the translucency of the lime wood.
